## WORK EXPERIENCE

### ESG Data Analyst

*Climate Accountability API, Berlin, Germany*

September 2025 – Current

- Engineered audit-ready ESG data pipelines mapping internal metrics directly to GRI, CSRD, and ESRS frameworks; built the foundational data structures required to transition corporate reporting from in reference to full compliance.
- Pioneered AI extraction by leveraging Gemini 2.5 Flash LLM model to automate ESG data integration from 100+ ESG reports, accelerating portfolio analysis speed by over 50% and ESG rating tool efficiency.
- Designed frameworks for Double Materiality Assessments, aligning corporate strategy with EU regulations (CSRD) and establishing structural KPIs for cross-functional stakeholders.
- Audited MSCI ESG rating methodologies, achieving 100% data consistency and absolute metrics transparency across evolving EU compliance directives.

### Sustainability Data Analyst Volunteer

*Net Zero Tracker, London, England*

May 2025 – March 2026

- Quality-assured and validated 40+ global corporate sustainability reports against the GHG Protocol, ensuring absolute data integrity for external disclosures and stakeholder dashboards
- Analyzed emerging renewable tech to deliver data-driven sustainability insights.

### Sustainability Team Lead Intern

*Greenie Web, Singapore*

November 2023 – March 2024

- Orchestrated global pro bono sustainability digitalization workshops across 28 countries, securing 100% client engagement and alignment.
- Spearheaded cross-functional sustainability campaigns, boosting internal and external stakeholder engagement by 20%.

### Sustainability Intern

*Greenie Web, Singapore*

August 2023 – November 2023

- Developed ESG frameworks insights and guidance reports, improving regulatory understanding and reporting consistency across teams by 20%.
- Managed 2+ concurrent client projects while maintaining a 95% on-time delivery rate.

## CERTIFICATIONS

- Risk Assessment Simulation – Goldman Sachs
- ESG and Sustainability – Udemy
- Climate Change and Sustainability simulation – EY
- Project Manager Simulation – Siemens
- ISO 14001: 2015 – Environmental Management System – Udemy
- Power BI simulation – PwC
- IFRS- Sustainability Disclosure Standards
- Sustainability Reporting- CSRD Institute

## Sustainable Construction Management Intern

*Kites Construction Academy, Bengaluru, Karnataka, India*

July 2019 - August 2019

- Assessed sustainable construction practices, identifying 20% efficiency gains and construction waste reductions.

## EDUCATION

### M.Sc. in Environmental and Resource Management

*Brandenburg Technical University, Cottbus, Germany*

October 2021 – October 2025

Thesis: “Adoption of Sustainable Agricultural Practices: A study on Common Trends, Perceptions, and Challenges Among Farmers Worldwide.”

### B.Eng. in Civil Engineering

*Visvesvaraya Technological University, Belagavi India*

May 2016 - August 2020

## PROJECTS

- Influence of sustainable business practices in biodiversity within agricultural industry.
- Stabilization of soils by partial replacement with waste materials.
- Comprehensive Survey Project – Ghati Subramanyam Region India.
